Event History Data - Oxford Scholarship This chapter extends Bayesian approaches for smoothing and regression developed in previous chapters to regression models for survival and event history data with structured additive predictors. This allows for the inclusion of nonlinear time-varying effects and flexible covariate effects, spatial effects, and random effects in addition to common linear predictors and to estimate them ... Bayesian Smoothing and Regression for Longitudinal ... Bayesian Smoothing and Regression for Longitudinal, Spatial and Event History Data. Ludwig Fahrmeir & Thomas Kneib. Adopting a unifying, Bayesian perspective, several recent advances in smoothing and semiparametric regression are presented in this book.
